AVIO0010 Identify powders, liquids, aerosols and gels (PLAGs)

Release: 1

AVIO0010 Identify powders, liquids, aerosols and gels (PLAGs)

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Application

This unit involves the skills and knowledge required to identify powders, liquids, aerosols and gels (PLAGs) in compliance with relevant regulatory requirements and national operating standards.

It includes assessing PLAGs and completing disposal requirements for PLAGs.

This unit addresses transport security technical skill requirements (physical, mental and task-management abilities) related to transport security search duties, and contributes to safe and effective performance in complex transport security operational environments.

Operations are conducted as part of recreational, aviation, maritime and transport activities across a variety of operational contexts within the Australian transport security industry.

Work is performed independently or under limited supervision as a single operator or within a team environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Pre-requisite Unit

Not applicable.

Competency Field

O – Security

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

PERFORMANCE CRITERIA
