Assessment Requirements for AVIO0032 Conduct vehicle search for access to secure areas

Release: 1

Assessment Requirements for AVIO0032 Conduct vehicle search for access to secure areas

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying hazard and risk mitigation processes and requirements for identifying and responding to them
- applying legislative requirements, including work health and safety and environmental procedures, in the context of searching motor vehicles and managing of prohibited items
- applying relevant legislative requirements and workplace procedures in managing weapons, explosives and prohibited items
- applying relevant procedures in the process of managing prohibited and unauthorised items to limit of authority working collaboratively with others
- identifying weapons, explosives and prohibited items accurately
- reporting items found and recording incidents
- using correct techniques and procedures in accordance with work health and safety (WHS)/occupational health and safety (OHS) procedures, legislative requirements and workplace procedures
- using equipment for the purpose and in the manner intended and authorised
- using search methods and techniques specified in workplace procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- analysis and observation techniques in vehicle searches for prohibited and unauthorised items
- documentation and recording processes for vehicle search details
- effective communication techniques with others when following vehicle search security procedures
- notification processes of results in accordance with legislative requirements and workplace procedures
- relevant legislation and workplace procedures
- relevant procedures in the process of managing prohibited and unauthorised items to limit of

authority

- relevant search methods, techniques and equipment
- response plan and procedures for damaged property associated with vehicle search
- systematic search techniques.
- unauthorised and illegal items and substances in accordance with legislative requirements and workplace procedures
- WHS/OHS requirements and legislative requirements for vehicle security checks and precautions within limits of own role and workplace procedures.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
