Assessment Requirements for AVIO0035 Identify powders, liquids, aerosols and gels (PLAGs)

Release: 1

Assessment Requirements for AVIO0035 Identify powders, liquids, aerosols and gels (PLAGs)

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying appropriate methods for checking of PLAGs on persons and items including persons with specific needs
- communicating effectively with others by a range of means such as verbal, non-verbal, written and digital
- complying with workplace procedures and completing documentation processes regarding disposal of PLAGs
- handling and disposal of PLAGs in accordance with legislative requirements and workplace procedures, as required
- identifying and interpreting relevant documentation and labelling, containers and goods coding, markings and other information describing PLAGs, including exempt PLAGs, in accordance with legislative requirements and workplace procedures
- presenting a professional image to members of the public and colleagues during searches for PLAGs
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- customer service standards and techniques to be applied when identifying PLAGs from persons and items in a transport security environment
- handling and disposal processes of PLAGs in accordance with legislative requirements and workplace procedures
- preparation of relevant documentation and maintenance of records
- risks and hazards when handling PLAGs, and related precautions to control the risk
- Work Health and Safety (WHS)/Occupational Health and Safety procedures and guidelines
- workplace procedures and policies applicable to obtaining PLAGs from persons in a transport

security environment.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
