AVIO0035 Identify powders, liquids, aerosols and gels (PLAGs)

Release: 1

AVIO0035 Identify powders, liquids, aerosols and gels (PLAGs)

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Application

This unit involves the skills and knowledge required to identify powders, liquids, aerosols and gels (PLAGs) in compliance with relevant regulatory requirements and national operating standards.

It includes assessing PLAGs and completing disposal requirements for PLAGs.

This unit addresses transport security technical skill requirements (physical, mental and task-management abilities) related to transport security search duties and contributes to safe and effective performance in complex transport security operational environments.

Operations are conducted across a variety of operational contexts within the Australian transport security environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Pre-requisite Unit

Not applicable.

Competency Field

O – Security

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Assess PLAGs

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1.1 Relevant persons and items are checked for PLAGs in accordance with legislative requirements and workplace

procedures

- | | | |
|----------|---|--|
| | 1.2 | Courteous, professional manner is maintained when checking persons and items for PLAGs in accordance with workplace procedures |
| | 1.3 | Types of PLAGs, including exempt PLAGs, are identified from labels, declarations and observation, in accordance with legislative requirements and workplace procedures |
| 2 | Complete disposal requirements for PLAGs | |
| | 2.1 | Surrendered PLAGs are disposed of in accordance with legislative requirements and workplace procedures |
| | 2.2 | Documentation for disposed surrendered PLAGs is completed in accordance with workplace procedures |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to AVIO0010 Identify powders, liquids, aerosols and gels (PLAGs).

Assessment Requirements for AVIO0035 Identify powders, liquids, aerosols and gels (PLAGs)

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying appropriate methods for checking of PLAGs on persons and items including persons with specific needs
- communicating effectively with others by a range of means such as verbal, non-verbal, written and digital
- complying with workplace procedures and completing documentation processes regarding disposal of PLAGs
- handling and disposal of PLAGs in accordance with legislative requirements and workplace procedures, as required
- identifying and interpreting relevant documentation and labelling, containers and goods coding, markings and other information describing PLAGs, including exempt PLAGs, in accordance with legislative requirements and workplace procedures
- presenting a professional image to members of the public and colleagues during searches for PLAGs
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- customer service standards and techniques to be applied when identifying PLAGs from persons and items in a transport security environment
- handling and disposal processes of PLAGs in accordance with legislative requirements and workplace procedures
- preparation of relevant documentation and maintenance of records
- risks and hazards when handling PLAGs, and related precautions to control the risk
- Work Health and Safety (WHS)/Occupational Health and Safety procedures and guidelines
- workplace procedures and policies applicable to obtaining PLAGs from persons in a transport

security environment.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
