Assessment Requirements for AVIO0039

Undertake physical search

Release: 1

Assessment Requirements for AVIO0039 Undertake physical search

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying relevant legislation and workplace procedures
- applying relevant procedures in the managing of prohibited and unauthorised items
- communicating relevant information and seeking further assistance
- conducting search of at least two different types of vehicles
- conforming to industry and WHS/OHS standards
- documenting and recording search details in accordance with regulatory requirements
- documenting and reporting processes and outcomes of search procedures
- following directions of relevant authorities in accordance with regulatory requirements and workplace procedures
- following established response plan and procedures to damaged property associated with search
- following relevant regulatory requirements and workplace procedures for the removal and storage of prohibited items
- identifying and applying risk mitigation strategies in line with physical search of items
- identifying and controlling workplace hazards and risks
- identifying potential areas to hide prohibited items within search parameters in accordance with security procedures
- reporting notification of results promptly, in accordance with regulatory requirements and workplace procedures
- undertaking analysis and observation during search for prohibited and unauthorised items
- using safe, thorough and systematic search techniques and equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- applicable transport security legislation

- authority to conduct physical search and management of prohibited and unauthorised items
- property damage reporting procedures
- record keeping procedures
- relevant workplace procedures for physical and vehicle searches
- work health and safety policies related to hazards associated with physical searches
- workplace transport security procedures and policies applicable to seizure of prohibited items in a transport security environment.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
