Assessment Requirements for AVIW0027 Deliver pyrotechnics and handheld stores

Release: 1

Assessment Requirements for AVIW0027 Deliver pyrotechnics and handheld stores

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- completing relevant documentation
- identifying and using required communications technology
- implementing arming and preparation procedures for pyrotechnics and handheld/air launched stores
- implementing contingency plans
- implementing work health and safety (WHS) procedures and relevant regulations
- interpreting and following flight and operational manuals and safety policies
- interpreting and following operational instructions and prioritising work
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring work activities in terms of planned schedule
- operating and adapting to differences in communications equipment in accordance with standard operating procedures (SOPs)
- performing serviceability inspection of pyrotechnics and handheld/air launched stores
- planning own work, predicting consequences and identifying improvements
- reading, interpreting and following relevant regulations, instructions, procedures, information and signs
- reporting and/or rectifying identified problems, faults or malfunctions promptly in accordance with workplace procedures
- working collaboratively with others
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include

knowledge of:

- in a Defence context, relevant Defence Orders and Instructions
- organisational policies and procedures for storing pyrotechnics and handheld/air launched stores
- pyrotechnics or handheld stores, including:
 - chaff
 - expendable mobile anti-submarine warfare training targets (EMATTS)
 - flares
 - heliboxes
 - life rafts
 - marker marines
 - search and rescue (SAR) datum buoys
 - signal underwater sound
 - smoke
 - sonobuoys
- practices for pyrotechnic and handheld/air launched stores delivery
- preparation and arming procedures of pyrotechnics and handheld/air launched stores
- procedures and protocols for using communications systems during an emergency
- relevant emergency procedures and duty of care requirements
- relevant Australian Standards
- relevant legislation and regulations, including:
 - Civil Aviation Safety Regulations (CASR) and Civil Aviation Orders
 - state/territory environmental protection
 - national and state/territory WHS
- relevant WHS responsibilities
- information/documentation, including:
 - aeronautical information publication (AIP)
 - approved checklists
 - charts
 - conditions of service, legislation and industrial agreements, including workplace agreements and awards
 - relevant sections of CASR
 - induction and training materials
 - flight manual/pilot operating handbook (POH)
 - operations manuals
 - workplace procedures and instructions, and job specification
- serviceability inspection procedures for pyrotechnics and handheld/air launched stores
- typical problems that may occur when delivering pyrotechnics and handheld/air launched stores, and appropriate action and solutions
- emergencies, including:

- aircraft emergencies
- aircraft malfunction
- battery malfunctions
- hung sonobuoy
- inadvertent release
- premature discharge
- WHS policies relating to pyrotechnic and handheld/air launched stores delivery.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
