Assessment Requirements for AVIY0095

Conduct winching operations

Release: 1

Assessment Requirements for AVIY0095 Conduct winching operations

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying crew resource management principles
- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- assembling winching equipment
- completing relevant documentation
- determining wind speed and direction
- maintaining situational awareness
- modifying activities depending on operational contingencies, risk situations and environments
- operating winch and associated primary and alternate winch controls
- reporting and rectifying identified problems, faults or malfunctions promptly
- using communication skills for conning
- utilising winching equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- abnormal or emergency situations and responses
- aircraft approach and overshoot considerations
- aircraft control voice and communications procedures
- aircraft safety, including day and night considerations
- approved workplace procedures and processes for winching operations
- correct winch and equipment configurations
- relevant hand signals
- relevant helicopter aeronautical knowledge
- relevant legislation and workplace procedures

- relevant winching equipment
- winch capabilities and limitations
- winch emergency procedures
- winching considerations within a range of operational environments
- winching operations.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
