AVI20512 Certificate II in Aviation Transport Protection

Release: 1

AVI20512 Certificate II in Aviation Transport Protection

Modification History

Release 1 - New qualification

Description

Please note RTO insert group (job role) on the certificate

Rationale:

This qualification is designed for Aviation Transport Protection within the Aviation Industry. Successful completion of the qualification will require competence in units of competency that relate to the job role requirements as defined as aligned at AQF Level II.

Job roles:

Job roles and titles vary across different sectors. Possible job titles relevant to this qualification include:

- Passenger Screener
- Control Room Operator
- Checked Baggage Screener

Pathways Information

Not applicable.

Licensing/Regulatory Information

Not applicable.

Entry Requirements

There are no entry requirements for this qualification.

Employability Skills Summary

Certificate II in Aviation Transport Protection

The following table contains a summary of the employability skills as identified by the Aviation Industry for this qualification. This table should be interpreted in conjunction with the detailed requirements of each unit of competency packaged in this qualification. The outcomes described here are broad industry requirements that may vary depending on packaging options.

Employability Skill	Industry/enterprise requirements for this qualification include:
Communication	• Use communication systems and procedures required for aviation transport protection operations • Read and interpret relevant regulations, instructions, signs and labels applicable to aviation transport protection operations • Speak clearly and directly on matters related to aviation transport protection operations • Write documents as part of duties, including completion of relevant forms and incident reports • Negotiate issues with others, where appropriate, in the course of aviation transport protection operations • Recognise and interpret non-verbal signs, signals and behaviour • Use relevant communication equipment.
Teamwork	• Collaborate with others in the course of aviation transport protection operations • Participate in to the resolution of any interpersonal conflicts that may arise during aviation transport protection operations • Avoid and prevent the harassment of others in the workplace • Work with persons of different ages, gender, race, religion, political persuasion, etc.
Problem solving	• Identify and solve or report problems arising in the course of aviation transport protection operations • Recognise problems that may occur in the course of aviation transport protection operations including hazards and risks and take appropriate action to report or resolve the problems within limits of responsibility • Use mathematics to carry out calculations related to activities involved in aviation transport protection operations.

Initiative and enterprise	• Modify activities dependent on differing situations and contingencies that may arise during aviation transport protection operations • Take appropriate initiatives in a range of situations such as those above • Respond appropriately to any changes in equipment, standard operating procedures and the working environment.
Planning and organising	• Follow and apply operational and emergency plans, systems and procedures • Comply with regulations and codes of practice • Follow and apply workplace security and safety management systems • Collect and interpret information needed in the course of aviation transport protection operations • Organise and plan own work activities • Manage time and priorities in the course of aviation transport protection operations.
Self management	• Interpret and apply regulations, standard operating procedures and instructions • Follow work plans and schedules • Check own work performance.
Learning	• Adapt own competence in response to any changes in aviation transport protection operations • Assist others in the workplace to develop their competence where applicable • Participate in updating own knowledge and skills required for aviation transport protection activities.
Technology	• Use the equipment and materials required during aviation transport protection operations • Follow and apply operational and servicing instructions for equipment used during aviation transport protection operations • Follow and apply OH&S procedures when using aviation transport protection equipment and facilities.

Packaging Rules

Requirements for completion of the qualification:

A successful assessment outcome for a total of **14 to 15** units of competency (depending on the group) comprising:

- **5 core** units listed below

plus

- **all units** within **one** of the selected **groups (A, B, or C)**, as listed below

plus

- **5 elective units** which may be taken from the elective units listed below, or may include up to **3 units** which may be drawn with appropriate contextualisation from a qualification at the same level or one higher in this Training Package or any other endorsed Training Package or accredited course, provided that the units contribute to the vocational outcome of the qualification.

Where imported units are selected, care must be taken to ensure that all pre-requisites specified are complied with.

Core units:

Field		Unit	
E	Communication and Calculation	CPPSEC2001A	Communicate effectively in the security industry
G	Teamwork	AVIG2002A	Work effectively in the aviation industry
I	Customer Service	AVII3011B	Provide quality customer service
O	Security	AVIO2012A	Follow security procedures
Z	Situation Awareness	AVIZ2050A	Maintain security awareness and vigilance in the aviation workplace

Select one group (job role) from the following options:

Group A: Passenger Screener

Group B: Control Room Operator

Group C: Checked Baggage Screener

Group A		(Passenger Screener)	
Field		Unit	
G	Teamwork	AVIG2003A	Work in a socially diverse environment
O	Security	AVIO2011A	Screen people to enter an airside security zone or landside security zone
		AVIO2010A	Screen articles to enter an airside security zone or landside security zone
		<i>Select one of the below units depending on the job function:</i>	
		AVIO2006A	Control access to and exit from an airside security zone or landside security zone at an airport
		or	
		AVIO2007A	Establish and maintain a sterile area at an airport

Group B		(Control Room Operator)	
Field		Unit	
E	Communication and Calculation	AVIE2005A	Conduct radio procedures in the aviation airport environment
F	Safety Management	AVIF2020A	Employ fatigue management practices in the aviation workplace
K	Technology	AVIK2001A	Use computers in the aviation screening workplace
O	Security	CPPSEC3020A	Monitor security from control room
		AVIO2006A	Control access to and exit from an airside security zone or landside security zone at an airport

Group C		(Checked Baggage Screener)	
Field		Unit	
F	Safety Management	AVIF2020A	Employ fatigue management practices in the aviation workplace
K	Technology	AVIK2001A	Use computers in the aviation screening workplace
O	Security	AVIO2005A	Conduct screening using Explosive Trace Detection (ETD)
		AVIO2010A	Screen articles to enter an airside security zone or landside security zone

Elective units:

Field		Unit	
C	Driving Vehicle	AVIC2001A	Drive on the airside
		TLIC1051A	Operate commercial vehicle
E	Communication and Calculation	AVIE2005A	Conduct radio procedures in the aviation airport environment
F	Safety Management	AVIF2023A	Follow occupational health and safety procedures
		AVIF2020A	Employ fatigue management practices in the aviation workplace
		AVIF2024A	Conduct housekeeping activities
G	Teamwork	AVIG2003A	Work in a socially diverse environment
K	Technology	AVIK2001A	Use computers in the aviation screening workplace
L	Resource Management	AVIL2005A	Complete routine administrative tasks
		AVIL2006A	Promote effective workplace practice

O Security

AVIO4003A	Implement airside access
AVIO2004A	Conduct frisk search of persons
AVIO2005A	Conduct screening using Explosive Trace Detection (ETD)
AVIO2006A	Control access to and exit from an airside security zone or landside security zone at an airport
AVIO2008A	Manage the flow of items for screening by X-ray screening equipment
AVIO2009A	Screen articles by interpreting X-ray images
AVIO2010A	Screen articles to enter an airside security zone or landside security zone
AVIO2011A	Screen people to enter an airside security zone or landside security zone
AVIO2013A	Undertake emergency response action to a security threat
CPPSEC1007A	Apply walk through metal detection procedures
CPPSEC1008A	Apply hand-held metal detection procedures
CPPSEC2002A	Follow workplace safety procedures in the security industry
CPPSEC2004A	Respond to security risk situation
CPPSEC2012A	Monitor and control individual and crowd behaviour
CPPSEC2014A	Operate basic security equipment
CPPSEC2015A	Patrol premises
CPPSEC2018A	Monitor electronic reporting facility
CPPSEC3001A	Maintain workplace safety in the security industry
CPPSEC3002A	Manage conflict through negotiation

	CPPSEC3003A	Determine response to security risk situation	
	CPPSEC3005A	Prepare and present security documentation and reports	
	CPPSEC3007A	Maintain security of environment	
	CPPSEC3017A	Plan and conduct evacuation of premises	
	CPPSEC3019A	Operate specialised security equipment	
	CPPSEC3020A	Monitor security from control room	
	AVIO2014A	Manage disruptive and/or unlawful behaviour	
	AVIO2015A	Apply and monitor workplace security procedures	
P	Administration and Finance	AVIP2001A	Capture records into a records keeping system
