Assessment Requirements for BSBCRT101

Apply critical thinking techniques

Release: 1

Assessment Requirements for BSBCRT101 Apply critical thinking techniques

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- explain the value of curiosity and questioning
- reflect on issues and situations
- ask questions of self and others to broaden own knowledge and understanding
- structure questions to suit different situations
- develop a considered response or conclusion to a particular question.

Note: if a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- list different types of questions and their relevance to different situations
- explain situations where questioning may not be appropriate
- outline techniques to assist in forming the habit of asking questions and taking responsibility for answers
- describe typical blockers to the critical thinking process
- discuss the importance of critical thinking for businesses, the community and at an individual level.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the creativity and innovation – critical thinking field of work and include access to specific challenges and situations to demonstrate the application of critical thinking.

Assessors must satisfy NVR/AQTF assessor requirements.
