Assessment Requirements for BSBDES201 Follow a design process

Release: 1

Assessment Requirements for BSBDES201 Follow a design process

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- determine project objectives, possible constraints and required support materials
- collaborate with others when generating ideas, solving problems, and seeking approvals and feedback
- schedule tasks and create project documentation to support proposed solutions
- review work to determine future improvements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe creative thinking techniques that can be used to generate ideas
- summarise the key steps in the design process as a way of thinking and solving problems
- list potential sources of information for new ideas, relevant to specific context.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the design process field of work and include access to office equipment required to implement solutions.

Assessors must satisfy NVR/AQTF assessor requirements.
