Release: 1

Assessment Requirements for BSBPMG521 Manage project integration

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- work closely with others to integrate all project management functions across a project life cycle according to organisational objectives
- negotiate with internal and external stakeholders
- create accurate project management documentation
- make suggestions for improvements to managing project integration in the future.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- summarise project governance models
- describe range of methodologies to break project objectives into achievable project deliverables
- outline role of project life cycle stages, phases and structures relevant to industry and project context
- identify and describe appropriate organisational documentation for recording strategies and goals for integration processes.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership – project management field of work and include access to:

- project documentation
- case studies and, where possible, real situations

- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.
