Application

This unit describes the skills and knowledge required to lead the portfolio. It covers the providing of effective leadership and management within the portfolio, and ensuring a vision is developed and communicated.

A portfolio is the centralised management of one or more portfolios of projects, which includes identifying, prioritising, authorising, managing and controlling projects, programs and other related work, to achieve specific strategic business objectives.

It applies to individuals who operate at the strategic level within the organisation. Unlike projects or programs, a portfolio does not have a finite life, instead it is a continuous process and requires regular tending to ensure the portfolio remains in balance and is consistent with the organisation's strategic objectives.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
