Assessment Requirements for BSBSMB308 Improve energy efficiency in micro or small business operations

Release: 2

Assessment Requirements for BSBSMB308 Improve energy efficiency in micro or small business operations

Modification History

Release	Comments
Release 2	This version released with BSB Business Services Training Package Version 2.0. Version created to clarify intent of unit
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access and review information relating to energy efficiency savings for a business
- compare costs and benefits to decide which energy efficiency option to choose
- make energy efficiency changes, involving other people and advisors if needed
- monitor energy efficiency improvements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain key energy efficiency terms and concepts
- discuss amount and type of energy used in the business
- outline information sources on energy efficiency for micro or small business, and options specific to a particular business.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Small Business field of work and include access to:

- business equipment and resources
- relevant legislation, regulations, standards and codes

- relevant workplace documentation and resources
- case studies or where possible, real situations.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
