- legal and ethical considerations and how these are applied in an organisation and individual practice, including:
 - duty of care
 - privacy, confidentiality and disclosure
 - work health and safety, including manual task risk factors
- risk factors and techniques used when environment or residence are not custom fitted with aids
- techniques for assisting with movement, including:
 - actions to be taken when a person is falling
 - active and passive movement
 - assistance with repositioning
 - assisting a person in an emergency
 - assisting a person off the floor
 - assisting a person to be weighed on chair weighing scales
 - assisting a person to change position in bed
 - assisting a person to use crutches or other walking aids
 - assisting a person to walk
 - assisting a person or co-worker to use a hoist or mechanical lifter for transfers
 - moving a person by wheelchair or trolley
 - moving a person between wheelchair or trolley and bed
 - moving a person to a standing or seated position
 - placing a person in a wheelchair
 - transfers from wheelchair to shower chair or toilet
 - utilising mobility aids owned by or associated with the person

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - individualised plans
 - equipment relevant to the persons mobility requirements
 - workplace health and safety manual
 - infection control manual
 - manual handling and lifting/no-lift policies of the organisation
 - equipment manufacturer's instructions
- modelling of industry operating conditions, including:
 - using real people when using equipment

- scenarios that reflect standard operating procedures and contingencies relevant to service

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
