CPC41020 Certificate IV in Demolition

Release 4

CPC41020 Certificate IV in Demolition

Modification History

Release 4 This version first released with CPC Construction, Plumbing and Services Training Package Release 8.0.

The following unit has been included in the Elective Bank of units:

- CPCSIL4001 Supervise and manage work with products and materials generating respirable crystalline silica.

Release 3 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.5.

Correction to unit title for BSBCMM411 from Make a presentation to Make presentations in Elective units.

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Inclusion of CPCCWH2001 Apply WHS requirements, policies and procedures in the construction industry to the General Elective units.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPC41013 Certificate IV in Demolition.

Qualification Description

This qualification is designed to meet the needs of project engineers, project managers, demolition supervisors and leading hands responsible for the oversight of a team of demolition workers undertaking specialist demolition work on large public, commercial, industrial or residential buildings, structures and installations, including chemical processing plants.

Occupational titles could include:

- Demolition supervisor
- Demolition project manager

Licensing, legislative, regulatory or certification requirements apply to demolition work in different states and territories. Please consult with the relevant regulatory authorities.

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

To achieve this qualification, the candidate must demonstrate competency in:

- 15 units of competency:
 - 8 core units
 - 7 elective units.

Elective units are to be selected as follows:

- all 7 elective units can be selected from the electives below
- up to 2 units can be selected from any training package or accredited course, as long as they contribute to a valid, industry-supported vocational outcome and supports the AQF level of this qualification.

Prerequisite units of competency

An asterisk (*) against a unit code below indicates that there is a prerequisite requirement that must be met. Prerequisite unit/s must be assessed before assessment of any unit of competency with an asterisk. All prerequisite requirements are packaged in the qualification.

Core units

BSBLDR414	Lead team effectiveness
CPCCBBC4002	Manage work health and safety in the building and construction workplace
CPCCBBC4012	Read and interpret plans and specifications
CPCCCDE4001	Plan and prepare for activities on demolition sites
CPCCCDE4002	Plan demolition work to minimise risk to health, safety and environment
CPCCCDE4003	Supervise operational activities on demolition sites
CPCCCDE4004	Finalise demolition activities and supervise property handover
CPCCCDE4005	Apply structural principles to the planning of the demolition of a structure

Elective units

BSBCMM411	Make presentations
-----------	--------------------

BSBPEF501	Manage personal and professional development
CPCCBC4004	Identify and produce estimated costs for building and construction projects
CPCCBC4008	Supervise communication and administration processes for building and construction projects
CPCCBC4009	Apply legal requirements to building and construction projects
CPCCBC4024	Resolve business disputes
CPCCBC4053	Apply building codes and standards to the construction process for Class 2 to 9 Type C buildings
CPCCBC5001	Apply building codes and standards to the construction process for Type B construction
CPCCBC5018*	Apply structural principles to the construction of buildings up to three storeys
CPCCBC6014	Apply structural principles to the construction of large, high-rise and complex buildings
CPCCDE3014*	Remove non-friable asbestos
CPCCDE3015*	Remove friable asbestos
CPCCDE3027	Read and interpret demolition site plans and drawings
CPCCDE4006	Demolish stressed panel structure and pre-cast panel structure
CPCCDE4007	Manage waste streams
CPCCDE4008*	Supervise asbestos removal
CPCCDE5001	Conduct air monitoring and clearance inspections for asbestos removal work
CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry
CPCSIL4001	Supervise and manage work with products and materials generating respirable crystalline silica
PUAFER004	Respond to facility emergencies
RIICWD503E	Prepare traffic management plans and traffic guidance schemes
RIIWHS301E	Conduct safety and health investigations

Qualification Mapping Information

Supersedes and is equivalent to CPC41013 Certificate IV in Demolition.
