## Qualification Description

This qualification is designed to meet the needs of project engineers, project managers, demolition supervisors and leading hands responsible for the oversight of a team of demolition workers undertaking specialist demolition work on large public, commercial, industrial or residential buildings, structures and installations, including chemical processing plants.

Occupational titles could include:

- Demolition supervisor
- Demolition project manager

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

## Licensing/Regulatory Information

Licensing, legislative, regulatory or certification requirements apply to demolition work in different states and territories. Please consult with the relevant regulatory authorities.

## Entry Requirements

This qualification has no entry requirements.

## Packaging Rules

To achieve this qualification, the candidate must demonstrate competency in:

- 15 units of competency:
  - 8 core units
  - 7 elective units.

Elective units are to be selected as follows:

- all 7 elective units can be selected from the electives below
- up to 2 units can be selected from any training package or accredited course, as long as they contribute to a valid, industry-supported vocational outcome and supports the AQF level of this qualification.
