CPCCDE3029				
CPCCDE4009				
5	Updated reference to general construction induction training program.			
4	This version first released with CPC Construction, Plumbing and Services Training Package Release 8.0. The following unit has been included in the Elective Bank of units: • CPCSIL4001 Supervise and manage work with products and materials generating respirable crystalline silica.			
3	This version first released with CPC Construction, Plumbing and Services Training Package Release 6.5. Correction to unit title for BSBCMM411 from Make a presentation to Make presentations in Elective units.			
2	This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1. Inclusion of CPCCWH2001 Apply WHS requirements, policies and procedures in the construction industry to the General Elective units.			

1	This qualification was first released in CPC Construction, Plumbing and Services Training Package Release 5.0.
---	--

Qualification Description

This qualification is designed to meet the needs of project engineers, project managers, demolition supervisors and leading hands responsible for the oversight of a team of demolition workers undertaking specialist demolition work on large public, commercial, industrial or residential buildings, structures and installations, including chemical processing plants.

Occupational titles could include:

- Demolition supervisor
- Demolition project manager

Licensing/Regulatory Information

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Additional Licensing, legislative, regulatory or certification requirements may apply in some states and territories. For further information, check with the relevant regulatory authority.

Entry Requirements

This qualification has no entry requirements.

Packaging Rules

To achieve this qualification, the candidate must demonstrate competency in:

- 15 units of competency:
 - 8 core units
 - 7 elective units.

Elective units are to be selected as follows:

- all 7 elective units can be selected from the electives below
- up to 2 units can be selected from any training package or accredited course, as long as they contribute to a valid, industry-supported vocational outcome and support the AQF level of this qualification.

Prerequisite units

An asterisk (*) against a unit code below indicates that the unit has a prerequisite. Please check the unit for more information. All prerequisites are packaged in the qualification.

Core units

BSBLDR414	Lead team effectiveness
CPCCBC4002	Manage work health and safety in the building and construction workplace
CPCCBC4012	Read and interpret plans and specifications
CPCCDE4001	Plan and prepare for activities on demolition sites
CPCCDE4002	Plan demolition work to minimise risk to health, safety and environment
CPCCDE4003	Supervise operational activities on demolition sites
CPCCDE4004	Finalise demolition activities and supervise property handover
CPCCDE4005	Apply structural principles to the planning of the demolition of a structure

Elective units

BSBCMM411	Make presentations
BSBPEF501	Manage personal and professional development
CPCCBC4004	Identify and produce estimated costs for building and construction projects
CPCCBC4008	Supervise communication and administration processes for building and construction projects site
CPCCBC4009	Apply legal requirements to building and construction projects
CPCCBC4024	Resolve business disputes
CPCCBC4053	Apply building codes and standards to the construction process for Class 2 to 9 Type C buildings
CPCCBC5001	Apply building codes and standards to the construction process for Type B construction
CPCCBC5018*	Apply structural principles to the construction of buildings up to three storeys
CPCCBC6014	Apply structural principles to the construction of large, high-rise and complex buildings
CPCCDE3027	Read and interpret demolition site plans and drawings
CPCCDE3028*	Remove non-friable asbestos
CPCCDE3029*	Remove friable asbestos

CPCCDE4006*	Demolish stressed panel structure and pre-cast panel structure
CPCCDE4007	Manage waste streams
CPCCDE4009*	Supervise asbestos removal
CPCCDE5001	Conduct air monitoring and clearance inspections for asbestos removal work
CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry
CPCSIL4002	Supervise and manage work with products and materials generating respirable crystalline silica
CPCWHS1001	Prepare to work safely in the construction industry
PUAFER004	Respond to facility emergencies
RIICWD503E	Prepare traffic management plans and traffic guidance schemes
RIIWHS301E	Conduct safety and health investigations

Pre-requisite Requirements

Unit of competency	Prerequisite requirement
CPCCBC5018 Apply structural principles to the construction of buildings up to three storeys	CPCCBC4053 Apply building codes and standards to the construction process for Class 2 to 9 Type C buildings CPCCBC5001 Apply building codes and standards to the construction process for Type B construction
CPCCDE3028 Remove non-friable asbestos	CPCWHS1001 Prepare to work safely in the construction industry
CPCCDE3029 Remove friable asbestos	CPCCDE3028 Remove non-friable asbestos CPCWHS1001 Prepare to work safely in the construction industry

CPCCDE4006 Demolish stressed panel structure and pre-cast panel structure	CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry
CPCCDE4009 Supervise asbestos removal	CPCCDE3028 Remove non-friable asbestos CPCCDE3029 Remove friable asbestos

Qualification Mapping Information
