**Release: 2**

# Assessment Requirements for CPCCL3017 Carry out tuck pointing and repointing to masonry

## Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCL3017A Carry out tuck pointing to brickwork. Title change. Updated to meet the Standards for Training Packages 2012.

## Performance Evidence

To demonstrate competency in this unit, a candidate must meet the performance criteria of this unit by tuck pointing and repointing the bed and perpendicular joints of a masonry wall.

In doing this, the candidate must:

- apply decorative tuck pointing to a minimum of two square metres to a specified colour and finish
- apply repointing to a minimum of two square metres.

## Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- characteristics, applications and limitations of materials for tuck pointing and repointing:
  - mortar ingredients and consistency
  - mortar adhesive ability, stability and durability
  - colouring agents and pigments
  - slaked rock lime
- processes and techniques for tuck pointing and repointing:
  - door and window reveals and sills
  - internal and external corners
  - maintaining consistent bed and perpendicular joints
- terminology relating to tuck pointing:
  - ribbon
  - struck
- functional and operational features of plant, equipment, hand and power tools
- workplace safety:

- job safety and environmental analysis (JSEA)
- work at heights
- hazardous manual tasks
- hazardous substances
- exposure to silica
- exposure to loud
- work instructions, standards, codes relating to tuck pointing and repointing
- environmental and waste management requirements:
  - disposal of waste material
  - recycling materials

## Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.
