Assessment Requirements for CPCCCA3010 Install windows and doors

Release: 2

Assessment Requirements for CPCCCA3010 Install windows and doors

Modification History

Release 2 Updated reference to general construction induction training program.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCA3010A Install and replace windows and doors. Title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by:

- installing in wall frames:
 - a standard window
 - a sliding cavity door unit and door
- constructing and fitting a standard external rebated door frame
- fitting and hanging one door, including door furniture, privacy set and door stops
- fitting and hanging a pair of doors.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code and Australian Standards, relevant to installing windows and doors, including *AS2688 Timber and composite doors* and *AS2047 Windows and external glazed doors in buildings*, and *Australian Window Association - An Industry Guide to the Correct Fixing of Windows and Doors*
- workplace quality policies and standards relevant to installing windows and doors
- safety requirements for installing windows and doors
- flashing requirements and installation techniques relevant to installing windows and doors
- plans, specifications and drawings for installing windows and doors
- types of tools and equipment required to install windows and doors, their characteristics, uses and limitations
- processes for setting out windows and doors
- processes for calculating material requirements for installing windows and doors
- materials relevant to installing windows and doors
- various types of doors:

- flush panel, framed and panelled, and glazed
- hinged door units including standard doors, sliding, flywire, combination window and door units, door sidelight units (glazed or unglazed) and internal doors
- jambs, stiles and sills
- flashing
- door furniture, including flush pulls, latches and deadlocks, push plates and closers, handles and locks
- window, door installation including flashing and fixing
- types of windows and doors, materials used and their characteristics and uses.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.
