Assessment Requirements for CPCCCA3012 Frame and fit wet area fixtures

Release: 2

Assessment Requirements for CPCCCA3012 Frame and fit wet area fixtures

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCCA3012A Frame and fit wet area fixtures.
Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by setting out and erecting timber framing for a minimum of:

- one bath
- one shower base.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code (NCC) and Australian Standards relevant to framing and fitting wet area fixtures
- workplace quality policies and standards for framing and fitting wet area fixtures
- safety requirements for framing and fitting wet area fixtures
- contents of and terms and symbols used in plans, specifications and drawings for framing and fitting wet area fixtures
- types of tools and equipment used to frame and fit wet area fixtures
- materials for framing and fitting wet area fixtures
- processes for framing and fitting wet area fixtures for:
 - setting out and measuring materials for frames
 - calculating material requirements
- impacts of requirements for waterproofing on framing for wet areas.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.
