Assessment Requirements for CPCCCA3014 Construct and install bulkheads

Release: 2

Assessment Requirements for CPCCCA3014 Construct and install bulkheads

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCCA3014A Construct bulkheads. Title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by:

- constructing and installing:
 - one straight bulkhead framed in timber or steel measuring a minimum of 2 m width, 300 mm height and 300 mm depth
 - one curved bulkhead framed in timber or steel measuring a minimum of 2 m width, 300 mm height and 300 mm depth
- installing a pre-manufactured bulkhead measuring a minimum of 2 m width, 300 mm height and 300 mm depth.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code and Australian Standards relevant to constructing and installing bulkheads
- workplace quality policies and standards relevant to constructing and installing bulkheads
- safety requirements relevant to constructing and installing bulkheads
- purposes of bulkheads:
 - decoration, to contain fittings (bar hoods and cupboards) and help facilitate changes in height to ceilings
 - services
 - range hoods
- materials and methods used to construct and install bulkheads
- application of curved geometry in the construction of bulkheads
- load and anchor capacities for bulkheads
- use of plans, specifications and drawings when constructing and installing bulkheads
- types and uses of tools and equipment used to construct and install bulkheads

- processes for setting out and measuring materials used to construct bulkheads
- processes for calculating material requirements for constructing and installing bulkheads.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions and standards, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
