Assessment Requirements for CPCCE4007 Manage waste streams

Release: 2

Assessment Requirements for CPCCE4007 Manage waste streams

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
New unit.

Performance Evidence

To demonstrate competency in this unit, a candidate must identify the different waste streams for a demolition project and supervise the segregation and disposal of the different waste streams. The candidate must provide evidence of:

- the initial audit/identification process
- the waste management tracking system, including the identified end use location of each waste stream.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- the compliance requirements of the relevant Australian Standards, Building Code of Australia (BCA), model codes of practice, environmental and work health and safety (WHS) legislation
- Australian and New Zealand Government Framework for Sustainable Procurement
- demolition methods:
 - impacts on recovery methods
 - impacts on recovery costs
 - types
- workplace hazards:
 - asbestos
 - chemicals
 - fuel
 - falling objects
 - flying debris
 - structural composition hazards
 - services hazards

- fire or explosion risk
- traffic
- materials for recovery:
 - clay
 - ferrous metals
 - glass
 - masonry:
 - bricks
 - concrete
 - natural aggregate
 - non-ferrous metals
 - paper and cardboard
 - plasterboard
 - plastic
 - steel
 - textiles
 - timber
- salvage:
 - process
 - effect on project timelines
- requirements under relevant state or territory legislation
- types of loads:
 - mixed loads
 - source separated.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment of performance must be undertaken in the workplace or in a simulated workplace environment.

Assessors are responsible for ensuring that the candidate demonstrating competency has access to:

- worksite/s specifications
- appropriate documents, materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- requirements of workplace policies, procedures and demolition plans.
