CPCCCDO2011 Handle and position dogging tools and equipment

Release: 2

CPCCDO2011 Handle and position dogging tools and equipment

Modification History

Release 2 Updated reference to general construction induction training program.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCDO2011A Handle and use dogging tools and equipment. Updated to meet the Standards for Training Packages 2012.

Application

This unit specifies the skills and knowledge required to handle and locate dogging tools and equipment. It includes selecting, moving, locating, positioning and storing dogging tools and equipment.

It applies to those who work under the direction of more experienced workers to support dogging activities.

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Unit Sector

Dogging

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Plan and prepare to handle, move and

1.1 Read work order and associated documentation and clarify work tasks with relevant persons.

- | | | |
|---|-----|--|
| locate dogging tools and equipment. | 1.2 | Plan all work to comply with relevant legislation, regulations, standards, codes, work health and safety (WHS), environmental and workplace requirements. |
| | 1.3 | Select dogging tools and equipment, check for serviceability and rectify or report identified faults. |
| | 1.4 | Select and fit personal protective equipment (PPE) appropriate for work activities. |
| 2 Handle, move, sort and stack dogging tools and equipment. | 2.1 | Move dogging tools and equipment manually using safe manual handling techniques. |
| | 2.2 | Stack or band dogging tools and equipment for mechanical handling in accordance with the type of material and the plant or equipment to be used. |
| | 2.3 | Load, unload, move or locate dogging tools and equipment at specified location, assist mechanical handling equipment operator and ensure safe handling. |
| | 2.4 | Sort dogging tools and equipment to suit load type and size, and stack for ease of identification and retrieval in accordance with task sequence and job location. |
| | 2.5 | Protect dogging equipment and associated tools against physical and water damage, and store clear of access ways for ease of identification, retrieval and distribution. |
| 3 Store dogging tools and equipment. | 3.1 | Use safe handling techniques to manually or mechanically handle and move dogging tools and equipment to storage area after concluding dogging task. |
| | 3.2 | Clean, check, maintain and store tools and equipment in accordance with manufacturer and workplace requirements. |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPCDDO2011A Handle and use dogging tools and equipment.

Assessment Requirements for CPCCDO2011 Handle and position dogging tools and equipment

Modification History

Release 2 Updated reference to general construction induction training program.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCDO2011A Handle and use dogging tools and equipment. Updated to meet the Standards for Training Packages 1012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the elements and performance criteria by handling and positioning dogging tools and equipment for three different dogging tasks.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- workplace and regulatory requirements for handling and positioning dogging tools and equipment under applicable Commonwealth, state or territory work health and safety (WHS) legislation and codes of practice:
 - job safety and environmental analyses (JSEAs)
 - safe work method statements (SWMSs)
 - signage
 - environmental and worksite safety plans
 - reporting problems
- interpreting task plans and specifications relating to safely handling and locating dogging tools and equipment
- types, characteristics, uses and limitations of dogging tools and equipment:
 - single leg slings
 - four leg slings
 - chain slings
 - synthetic webbing slings
 - two leg slings
 - brick cages
 - chocks and wedges
 - flexible steel wire rope (FSWR)

- kibbles
- natural ropes
- packers
- personnel box
- rigging screws
- shackles and eye bolts
- spreader beams
- turn buckles
- processes for assisting mechanical handling equipment operator, including signalling methods
- requirements for cleaning up work area, maintaining and storing tools, equipment and materials, and for environmentally friendly waste management.

Assessment Conditions

Assessors must meet the requirements for assessors outlined in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to:

- industry-standard equipment required to perform the tasks specified in the Performance Evidence
- appropriate workplace information and records, including policies, procedures and legislative requirements.
