Assessment Requirements for CPCCDO3012 Perform crane scheduling

Release: 2

Assessment Requirements for CPCCDO3012 Perform crane scheduling

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCDO3012A Perform crane scheduling.
Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the elements and performance criteria by scheduling the correct sequence of lifts for a minimum of three crane lifts.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- workplace and regulatory requirements for performing crane scheduling under applicable Commonwealth, state or territory work health and safety (WHS) legislation, Australian Standards and codes of practice:
 - job safety and environmental analyses (JSEAs)
 - safe work method statements (SWMSs)
 - safety manuals and instructions for plant, tools and equipment
 - signage and barricades
 - personal protective equipment (PPE)
 - environmental and worksite safety plans
 - reporting problems
- techniques for performing crane task sequencing scheduling:
 - assessing lifting tasks for time required for completion
 - determining most efficient order for lifting tasks to coordinate with other site activities and to use resources efficiently
 - documenting schedules
 - modifying schedules
 - communicating schedules and changes to schedules to relevant persons
 - implementing work completion procedures.

Assessment Conditions

Assessors must meet the requirements for assessors outlined in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to:

- industry-standard equipment required to perform the tasks specified in the Performance Evidence
- appropriate workplace information and records, including policies, procedures and legislative requirements.
