Assessment Requirements for CPCCJN2003 Package manufactured products for transport

Release: 2

Assessment Requirements for CPCCJN2003 Package manufactured products for transport

Modification History

Release 2 Updated reference to general construction induction training program.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCJN2003A Package manufactured products for transport. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by packaging a range of products and loading them for transportation using:

- three of the following packaging materials:
 - packing blankets
 - corrugated paper
 - bubble wrap
 - pallet wrapping
 - polystyrene foam moulding
 - shrink packaging
 - stretch wrap
 - timber
 - banding
- two of the following packaging processes:
 - banding applied to stacks and bundles to maintain stack stability
 - boxes and crates constructed to enclose and protect products
 - separation packing applied to stacked and bundled products.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of Commonwealth and state or territory legislation relevant to packaging manufactured products for transport
- workplace quality policies and standards for packaging manufactured products for transport
- safety requirements for packaging manufactured products for transport

- recycling and reuse of packaging materials
- types and uses of tools and equipment for packaging manufactured products for transport
- packaging materials:
 - corrugated paper
 - bubble wrap
 - pallet wrapping
 - polystyrene foam moulding
 - shrink packaging
 - stretch wrap
 - timber
 - banding
- packaging processes:
 - banding applied to stacks and bundles to maintain stack stability
 - boxes and crates constructed to enclose and protect products
