Assessment Requirements for CPCCJN3004 Manufacture and assemble joinery components

Release: 3

Assessment Requirements for CPCCJN3004 Manufacture and assemble joinery components

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.1.
- Rectified PC 3.1 from 'components in their assembled positions' to Check components for accuracy, quality and suitability by dry-assembling components in their assembled positions.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCJN3004A Manufacture joinery components. Title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by manufacturing and assembling joinery components for two of the following:

- an opening sash and window frame
- a multi panelled door and frame
- a carcass unit or similar including door/s and drawer/s.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of Australian Standards relating to all aspects of manufacturing and assembling joinery components, including AS 1473 Guarding and safe use of woodworking machinery
- workplace quality policies and standards for manufacturing and assembling joinery components
- job safety analyses (JSAs), safe work method statements (SWMSs) and safety data sheets (SDSs)
- safety requirements for manufacturing and assembling joinery components
- environmental requirements for manufacturing and assembling joinery components
- types and uses of machines, tools and equipment required for manufacturing and assembling joinery components

- types of knock-down fittings and traditional joints.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.
