Assessment Requirements for CPCCPA3004 Finish segmental paving

Release: 2

Assessment Requirements for CPCCPA3004 Finish segmental paving

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCPA3004A Finish segmental paving.
Minor title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the performance criteria of this unit by setting and finishing a paving project, minimum of 2.0 m x 3.0 m.

In doing this, the candidate must:

- secure the edging course in mortar
- set paving in sand, pebbles or mortar.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- characteristics, applications and limitations of approved paving materials:
 - types of segmental pavers
 - mortar ingredients and consistency
 - setting materials
 - sealing products
- processes and techniques relating to paving:
 - securing edging course using different methods
 - compacting and rolling during setting
- terminology relating to paving
- effect of salt and chlorine in pools on pavers, mortar and other bonding agents
- principles of vertical interlock, rotational interlock and horizontal interlock
- brick and paver expansion and, control and articulation joints
- functional and operational features of plant, equipment and hand and power tools:
 - plate compactors
 - rollers
- workplace safety requirements:

- job safety and environmental analysis (JSEA)
- hazardous manual tasks
- exposure to silica
- exposure to loud noise
- environmental requirements for workplace processes and waste disposal.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.
