Assessment Requirements for CPCCPA3005 Maintain and repair segmental paving

Release: 2

Assessment Requirements for CPCCPA3005 Maintain and repair segmental paving

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCPA3005A Maintain and repair segmental paving. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the performance criteria of this unit by removing and replacing a minimum of 12 damaged or worn pavers and repairing a minimum of 1.5 metres square sunken pavers.

In doing this, the candidate must:

- remove damaged, worn or sunken pavers without damage to surrounding pavers
- spread and compact bed to height of existing bed
- replace or return pavers with even and consistent joints
- set joints fully and clean area.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- characteristics, applications and limitations of specified paving materials:
 - sealing products
 - masonry cleaning chemicals
- processes and techniques relating to paving:
 - removing damaged pavers using various methods
 - laying of various paving designs and patterns
 - using various hand and pressure cleaning methods
- terminology relating to paving
- functional and operational features of plant, equipment and hand and power tools:
 - wet cut saw
 - plate compactors
 - rollers
- workplace safety requirements:

- job safety and environmental analysis (JSEA)
- hazardous manual tasks
- electrical hazards
- exposure to silica
- exposure to loud noise
- environmental requirements for workplace processes and waste disposal.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.
