Assessment Requirements for CPCCPB3002 Fix standard plasterboard ceiling sheets

Release: 2

Assessment Requirements for CPCCPB3002 Fix standard plasterboard ceiling sheets

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and equivalent to CPCCPB3002A Fix standard plasterboard ceiling sheets. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by fixing two butted 15 square metres of plasterboard ceiling sheets to each of:

- a frame
- furring channels.

All work must be performed to the standard required in the workplace and must comply with Commonwealth and state/territory laws and regulations, the National Construction Code, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, and workplace requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code and Australian Standards for fixing standard plasterboard ceiling sheets, including AS/NZS2589 Gypsum linings - application and finishing
- levels of finish, including notifications required for application for level 5
- requirements for spacing of stud adhesive and temporary blocks
- quality policies and standards for fixing standard plasterboard ceiling sheets
- safety requirements fixing standard plasterboard sheets, including personal protective equipment (PPE), job safety analyses, safe work method statements and safety data sheets
- processes for safe handling and lifting of ceiling sheets
- environmental requirements for fixing standard plasterboard ceiling sheets
- manufacturers' product installation procedures and nominated specifications for fixing standard ceiling sheets
- types and uses of adhesives and fasteners for fixing standard plasterboard ceiling sheets
- techniques for fixing standard plasterboard ceiling sheets

- plasterboard materials
- materials storage and environmentally friendly waste management
- processes for fixing plasterboard ceiling sheets to furring channels and timber and metal frames
- plans, drawings and specifications fixing standard plasterboard ceiling sheets
- processes for the calculation of material requirements for fixing standard ceiling sheets
- types and uses of tools and equipment types for fixing standard plasterboard ceiling sheets.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
