Assessment Requirements for CPCCPB3003 Fix battens

Release: 2

Assessment Requirements for CPCCPB3003 Fix battens

Modification History

Release 2 Updated reference to general construction induction training program.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and equivalent to CPCCPB3003A Fix battens. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by fixing battens for a 9 square metre ceiling, including at least one control joint.

All work must be performed to the standard required in the workplace and must comply with Commonwealth and state/territory laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, and workplace requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of Australian Standards for fixing battens
- quality policies and standards for fixing battens
- safety requirements for fixing battens, including personal protective equipment (PPE), job safety analyses, safe work method statements and safety data sheets
- environmental requirements for fixing battens
- plans, drawings and specifications for fixing battens
- batten fixing techniques
- control joints
- types of tools and equipment for fixing battens.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
