Assessment Requirements for CPCCPB3006 Fix fibre cement board

Release: 2

Assessment Requirements for CPCCPB3006 Fix fibre cement board

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and equivalent to CPCCPB3006A Fix fibre cement board. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by fixing a minimum 15 square metres of fibre cement board.

All work must be performed to the standard required in the workplace and must comply with Commonwealth and state/territory laws and regulations, the National Construction Code, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, and workplace requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code and Australian Standards for fixing fibre cement boards
- quality policies and standards for fixing fibre cement boards
- requirements for wet areas that will be tiled, and for wet areas that will be non-tiled
- safety requirements for fixing fibre cement boards, including personal protective equipment (PPE), job safety analyses, safe work method statements and safety data sheets
- processes for safe handling and lifting of fibre cement boards
- environmental requirements for fixing fibre cement boards
- manufacturers' product installation procedures and nominated specifications for fixing fibre cement boards
- types and uses of adhesives and fasteners for fibre cement boards
- fibre cement board materials
- materials storage and environmentally friendly waste management
- plans, drawings and specifications for fixing fibre cement boards
- fixing techniques for fibre cement boards
- processes for the calculation of material requirements for fixing fibre cement boards

- types of tools and equipment for fixing fibre cement boards.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
