Assessment Requirements for CPCCPB3012 Cut and fix paper-faced cornices

Release: 3

Assessment Requirements for CPCCPB3012 Cut and fix paper-faced cornices

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.6.
Title 'Clean up' added to Element 5.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and equivalent to CPCCPB3012A Cut and fix paper-faced cornices.
Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by installing a minimum of 5 linear metres of each of 55 mm, 90 mm and profile paper-faced cornice. Each installation must include at least one internal mitre, one external mitre, one splayed mitre and one butt joint mitre.

All work must be performed to the standard required in the workplace and must comply with Commonwealth and state/territory laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, and workplace requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the and Australian Standards for cutting and fixing paper-faced cornices
- quality policies and standards for cutting and fixing paper-faced cornices
- safety requirements for cutting and fixing paper-faced cornices, including personal protective equipment (PPE), job safety analyses, safe work method statements and safety data sheets, and working safely at heights
- techniques for cutting, safe lifting, temporary and permanent fixing of cornice
- requirements for working safely at heights when cutting and fixing paper-faced cornices
- manufacturers' specifications for preparing adhesives and fixing cornices
- methods of using levels to align paper-faced cornice
- plans, drawings and specifications for cutting and fixing paper-faced cornices

- processes for measuring, calculating and recording cornice requirements
- types of tools and equipment for cutting and fixing paper-faced cornices.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
