Assessment Requirements for CPCCPD2011 Handle and store painting and decorating materials

Release: 3

Assessment Requirements for CPCCPD2011 Handle and store painting and decorating materials

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.
- Correction to Training Package title in the Modification History from CPC Property Services to CPC Construction, Plumbing and Services Training Package.
- Release 1 This version first released with CPC Property Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCPD2011A Handle painting and decorating materials. Minor title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by safely handling and storing painting and decorating materials for two painting and decorating activities, including, on each occasion:

- a range of coatings
- two each of:
 - cleaning solvents
 - fillers
 - adhesives
- wall and decorative covering materials.

All work must be performed to the standard required in the workplace and must meet the requirements of work health and safety (WHS), Commonwealth and state or territory legislation, manufacturers' specifications and environmental plans and obligations.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- safety data sheets (SDS)
- safety requirements relevant to handling and storing painting and decorating materials
- environmental requirements relevant to handling and storing painting and decorating materials

- waste management, including:
 - solid waste and paint sludge disposal techniques relating to relevant legislation, local council regulations and Environmental Protection Authority (EPA)
 - alternative and natural paint and paint materials
- basic spontaneous combustion theory, causes and controls of spontaneous ignition
- types of paints, including the characteristics and uses of paint materials with various volatile organic compound (VOC) levels and alternative and natural paints
 - materials:
 - paints:
 - water-based
 - solvent-based
 - two-pack
 - textures
 - cleaning solvents
 - coatings
 - fillers and adhesives
 - wall and decorative covering materials
- quality requirements for handling painting and decorating materials
- types, titles, packaging and storage requirements for common painting and decorating materials
- painting and decorating terminology
- Australian Paint Approval Scheme (APAS) classifications.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
