Assessment Requirements for CPCCPD3023 Apply texture coat paint finishes by brush, roller and spray

Release: 3

Assessment Requirements for CPCCPD3023 Apply texture coat paint finishes by brush, roller and spray

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.
Minor edits to formatting.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and equivalent to CPCCPD3023A Apply texture coat paint finishes by brush, roller and spray. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by preparing and applying texture coat paints using:

- • brush and roller
 - complete a wall from floor to ceiling with two hard edges to a minimum of six square metres
- by spray to:
 - complete a wall, from floor to ceiling with two hard edges to a minimum of six square metres

All work must be performed to the standard required in the workplace and must meet the requirements of work health and safety (WHS), Commonwealth and state or territory legislation, manufacturers' specifications, and environmental plans and obligations.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- safety requirements relevant to applying texture coat finishes by brush and roller
- environmental requirements relevant to applying texture coat finishes by brush and roller
- waste management:
 - materials storage and environmentally sustainable waste management, including correct disposal of water-based, latex-based and solvent-based paints
 - solid waste and paint sludge disposal techniques and relevant legislation, including Environmental Protection Authority (EPA) and local council regulations

- requirements of AS2311 Guide to the painting of building
- processes for the calculation of material requirements relevant to applying texture coat finishes by brush and roller
- quality requirements relevant to applying texture coat finishes by brush and roller
- surface preparation techniques related to texture coatings
- texture coat paint systems technology
- common defects in texture coats, and methods of rectification
- applicator system types, characteristics, uses and limitations relevant to applying texture coat finishes by brush and roller
- types, characteristics, uses and limitations of tools and equipment relevant to applying texture coat finishes by brush and roller
- texture coatings and their properties, uses and limitations.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures.
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
