Assessment Requirements for CPCCPD3032 Apply advanced wall coverings

Release: 3

Assessment Requirements for CPCCPD3032 Apply advanced wall coverings

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.
- Correction to Training Package title in the Modification History from CPC Property Services to CPC Construction, Plumbing and Services Training Package.
- Release 1 This version first released with CPC Property Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCPD3032A Apply advanced wallpaper techniques. Title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by applying wall coverings for a minimum of two tasks, each for at least six square metres, including:

- one anaglypta
- one wall covering requiring double-cutting on surfaces containing power points, vents and switches from the following -
 - suede grass weaves
 - other commercial grade materials
 - frontrunner
 - linen backed vinyl
 - flock
 - lyncrusta
 - metallic foils
 - photo murals

In performing these tasks, the adhesives used can be cellulose, latex, polyvinyl alcohol (PVA) or starch.

All work must be performed to the standard required in the workplace and must meet the requirements of work health and safety (WHS), Commonwealth and state or territory legislation, manufacturers' specifications, and environmental plans and obligations.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- safety requirements relevant to applying wall coverings
- environmental requirements relevant to applying advanced wall coverings
- common wall covering defects
- compatibility of preparatory materials and wall coverings
- plans, drawings and specifications relevant to applying wall coverings
- procedures used to apply straight pattern match, drop pattern match and random match wall coverings
- processes for the calculation of material requirements relevant to applying advanced wall coverings techniques
- quality requirements relevant to applying advanced wall coverings techniques
- surface preparation techniques for the application of wall coverings and specialty materials
- types and properties of wall coverings and their suitability to various substrates
- types, uses and limitations of commonly used adhesives relevant to applying advanced wall coverings techniques
- wall coverings hanging processes and techniques
- types of wall coverings and specialty materials:
 - anaglypta
 - flock
 - frontrunner
 - linen backed vinyl
 - lyncrusta
 - metallic foils
 - photo murals
 - suede grass weaves
 - other commercial grade materials
- types of wall coverings adhesives:
 - cellulose
 - latex
 - polyvinyl acetate (PVA)
 - starch
 - other special adhesive blends
- wall coverings applications for walls:
 - set plaster
 - plasterboard
 - fibrous plaster
 - medium density fibre board
 - fibre cement products

- flat or curved
- wall covering tools and equipment, their uses and limitations.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
