CPCCPD3032 Apply advanced wall coverings

Release: 3

CPCCPD3032 Apply advanced wall coverings

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.
Correction to Training Package title in the Modification History from CPC Property Services to CPC Construction, Plumbing and Services Training Package.
- Release 1 This version first released with CPC Property Services Training Package Release 5.0.
Supersedes and is equivalent to CPCCPD3032A Apply advanced wallpaper techniques. Title change. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to apply wall coverings to walls and ceilings to form a protective and decorative finish.

A person who has achieved this unit of competency would be expected to take responsibility for organising and completing these tasks with a high degree of self-direction.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCCWHS200 Apply WHS requirements, policies and procedures in the construction
1 industry

Unit Sector

Painting and Decorating

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|------------------------------------|---|
| 1 Plan and prepare. | 1.1 Review work instructions for details of requirements to apply wall coverings. |
| | 1.2 Plan all work to meet relevant requirements of work health and safety (WHS), Commonwealth and state or territory legislation, environmental plans and obligations, manufacturers' specifications, and workplace requirements. |
| | 1.3 Select and fit personal protective equipment (PPE) as required for each task. |
| | 1.4 Inspect work site, assess hazards and apply risk controls, including required signage and barricades. |
| | 1.5 Identify the types and quantities of materials required for the task and safely prepare and position ready for use. |
| | 1.6 Select tools and equipment, check for serviceability and report any faults. |
| 2 Prepare to apply wall coverings. | 2.1 Prepare surfaces for wall coverings by removing existing coating and loose debris, repairing, stopping and filling imperfections, and sanding to smooth finish. |
| | 2.2 Prepare and document plan for hanging wall coverings. |
| | 2.3 Check materials for conformity to dye lot, batch number and other shading requirements in accordance with client requirements. |
| | 2.4 Prepare adhesives in accordance with requirements. |
| | 2.5 Apply size coating to work area. |
| 3 Apply wall coverings. | 3.1 Apply wall coverings to work area ensuring an even surface, seams are butted/double-cut, paper is plumb, and pattern is matched correctly. |
| | 3.2 Trim accurately around fittings with minimal impact on surroundings. |

- 4 Clean up.
 - 4.1 Clean up, meeting all legislative and workplace requirements for safety, waste disposal, materials handling and protection of the environment.
 - 4.2 Clear work area, reuse or recycle materials and place waste and unwanted materials into job waste bins or rubbish stockpile.
 - 4.3 Check and maintain tools and equipment and clean with appropriate solvents.
 - 4.4 Dispose of waste and water and solvents used in cleaning tools and equipment in an environmentally sustainable manner.
 - 4.5 Store tools, equipment and unused materials.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and equivalent to CPCCPD3032A Apply advanced wallpaper techniques.

Assessment Requirements for CPCCPD3032 Apply advanced wall coverings

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.4.
- Correction to Training Package title in the Modification History from CPC Property Services to CPC Construction, Plumbing and Services Training Package.
- Release 1 This version first released with CPC Property Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCPD3032A Apply advanced wallpaper techniques. Title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by applying wall coverings for a minimum of two tasks, each for at least six square metres, including:

- one anaglypta
- one wall covering requiring double-cutting on surfaces containing power points, vents and switches from the following -
 - suede grass weaves
 - other commercial grade materials
 - frontrunner
 - linen backed vinyl
 - flock
 - lyncrusta
 - metallic foils
 - photo murals

In performing these tasks, the adhesives used can be cellulose, latex, polyvinyl alcohol (PVA) or starch.

All work must be performed to the standard required in the workplace and must meet the requirements of work health and safety (WHS), Commonwealth and state or territory legislation, manufacturers' specifications, and environmental plans and obligations.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- safety requirements relevant to applying wall coverings
- environmental requirements relevant to applying advanced wall coverings
- common wall covering defects
- compatibility of preparatory materials and wall coverings
- plans, drawings and specifications relevant to applying wall coverings
- procedures used to apply straight pattern match, drop pattern match and random match wall coverings
- processes for the calculation of material requirements relevant to applying advanced wall coverings techniques
- quality requirements relevant to applying advanced wall coverings techniques
- surface preparation techniques for the application of wall coverings and specialty materials
- types and properties of wall coverings and their suitability to various substrates
- types, uses and limitations of commonly used adhesives relevant to applying advanced wall coverings techniques
- wall coverings hanging processes and techniques
- types of wall coverings and specialty materials:
 - anaglypta
 - flock
 - frontrunner
 - linen backed vinyl
 - lyncrusta
 - metallic foils
 - photo murals
 - suede grass weaves
 - other commercial grade materials
- types of wall coverings adhesives:
 - cellulose
 - latex
 - polyvinyl acetate (PVA)
 - starch
 - other special adhesive blends
- wall coverings applications for walls:
 - set plaster
 - plasterboard
 - fibrous plaster
 - medium density fibre board
 - fibre cement products

- flat or curved
- wall covering tools and equipment, their uses and limitations.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
