Assessment Requirements for CPCCR13001 Operate personnel and materials hoists

Release: 2

Assessment Requirements for CPCCRI3001 Operate personnel and materials hoists

Modification History

Release 2 Updated reference to general construction induction training program.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCRI3001A Operate personnel and materials hoists. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the elements and performance criteria by operating a personnel and materials hoist to lift:

- two loads of different materials between floors in a multi-storey building
- two groups of personnel between floors in a multi-storey building.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- workplace and regulatory requirements for operating personnel and materials hoists under applicable Commonwealth, state or territory work health and safety (WHS) legislation, Australian Standards and codes of practice:
 - job safety and environmental analyses (JSEAs)
 - safe work method statements (SWMSs)
 - safety data sheets (SDSs)
 - safety manuals and instructions for plant, tools and equipment
 - signage and barricades
 - personal protective equipment (PPE)
 - working at heights requirements
 - environmental and worksite safety plans
 - reporting problems
- mathematical processes for calculating load mass to ensure conformity to safe load capacity of hoist
- safety and equipment checks for personnel and materials hoists
- signalling methods and communications
- processes for completing logbooks and site records

- requirements for cleaning up work area, maintaining and storing tools, equipment and materials, and for environmentally friendly waste management.

Assessment Conditions

Assessors must meet the requirements for assessors outlined in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to:

- industry-standard equipment required to perform the tasks specified in Performance Evidence
- appropriate workplace information and records, including policies, procedures and legislative requirements.
