Assessment Requirements for CPCCSP3002

Apply set coats

Release: 2

Assessment Requirements for CPCCSP3002 Apply set coats

Modification History

Release 2 Updated reference to general construction induction training program.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and equivalent to CPCCSP3002A Apply set coats. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by applying set coats and trowelling surfaces to achieve a level of finish within specified tolerances to:

- a minimum 4 square metres of vertical surface, including an opening with a head, sill and reveals
- a minimum 4 square metres of horizontal surface
- a minimum 4 square metres of curved surface.

All work must be performed to the standard required in the workplace and must comply with laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, workplace requirements, drawings and specifications.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of Australian Standards for applying set coats
- workplace quality policies and standards for applying set coats
- safety requirements for applying set coats, including:
 - job safety analyses and/or safe work method statements in accordance with Safe Work Australia *Code of Practice for Construction Work* or state and/or territory equivalent
 - safety data sheets (SDS)
 - personal protective equipment (PPE)
- environmental requirements for applying set coats
- characteristics of substrates for set coats, including:
 - masonry
 - sheeting
- uses of approved materials and components for solid plastering:

- corner beads
- casing beads
- timber or expanded metal lathing (ELP)
- sand, lime and lime putty
- plaster compounds and finishing coats
- additives, such as plasticisers, colour and waterproofing agents
- processes and techniques for mixing and applying set coats
- types and uses of tools and equipment for mixing and applying set coats
- types and uses of plans, drawings and specifications for applying set coats.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
