CPCCSP3003 Apply trowelled texture coat finishes

Release: 3

CPCSP3003 Apply trowelled texture coat finishes

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.
Minor edits to formatting in Element and Performance Criteria.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and equivalent to CPCSP3003A Apply trowelled texture coat finishes. Updated to meet the Standards for Training Packages 2012.

Application

This unit specifies the skills and knowledge required to mix and apply trowelled texture coat finishes.

A person working at this level would be expected to take responsibility for organising and completing tasks assigned to them, without close supervision.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of unit *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCWHS2001 Apply WHS requirements, policies and procedures in the construction industry.

Unit Sector

Plastering

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | | |
|--|-----|--|
| 1 Plan and prepare to apply trowelled texture coat finishes. | 1.1 | Read and interpret work instructions and plan sequence of work. |
| | 1.2 | Plan all work to comply with laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, and workplace requirements. |
| | 1.3 | Select and use personal protective equipment (PPE) for each stage of the task. |
| | 1.4 | Inspect work site, assess hazards and apply risk controls, including required signage and barricades. |
| | 1.5 | Select tools and equipment, check for serviceability and report any faults. |
| | 1.6 | Select materials required for task, calculate quantities, handle safely and prepare and position ready for use. |
| 2 Prepare surface and mix and apply texture coat. | 2.1 | Prepare substrate for the specified trowelled texture coat finish. |
| | 2.2 | Mix texture coating materials to designed proportion and consistency. |
| | 2.3 | Apply texture coat with trowel to a uniform finish to Australian Standards. with specified thickness. |
| 3 Finish and cure texture coat | 3.1 | Finish texture coat plumb and level. |
| | 3.2 | Cure texture coat to weather and/or temperature conditions. |
| 4 Clean up. | 4.1 | Clear work area, dispose of materials, and reuse or recycle in compliance with legislation, regulations and codes of practice. |
| | 4.2 | Clean, check, maintain and store tools and equipment in accordance with manufacturers' specifications. |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and equivalent to CPCSP3003A Apply trowelled texture coat finishes.

Assessment Requirements for CPCSP3003 Apply trowelled texture coat finishes

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.
Minor edits to formatting in Element and Performance Criteria.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and equivalent to CPCSP3003A Apply trowelled texture coat finishes. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by:

- applying a trowelled texture coat finish to a minimum of 4 square metres of curved wall
- applying a different trowelled texture coat finish to a minimum of 4 square metres of masonry wall containing an internal and external corner and an opening with a head, reveals and a sill.

All work must be performed to the standard required in the workplace and must comply with laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, workplace requirements, drawings and specifications.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of Australian Standards for applying trowelled texture finishes
- quality policies and standards for applying trowelled texture finishes
- safety requirements for applying trowelled texture finishes, including:
 - job safety analyses and/or safe work method statements in accordance with Safe Work Australia *Code of Practice for Construction Work* or state and/or territory equivalent
 - safety data sheets (SDS)
 - personal protective equipment (PPE)
- environmental requirements for applying trowelled texture finishes
- techniques for applying trowelled texture finishes

- types and uses of decorative finishes, including:
 - Stucco Venezia
 - Travertine
- types and uses of materials and components for solid plastering, including:
 - acrylic or styrene/acrylate coatings
 - proprietary texture coat finishes products
- types and uses of tools and equipment for applying trowelled texture finishes
- types and uses of plans, drawings and specifications for applying trowelled texture finishes.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
