Assessment Requirements for CPCCSP3008 Carry out concrete construction and wall sheet panning

Release: 2

Assessment Requirements for CPCCSP3008 Carry out conite construction and wall sheet panelling

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
New unit.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by applying conite construction, including wall sheet panels, to a minimum of 4 square metres of timber or metal frame wall, including applying a three coat finish system.

All work must be performed to the standard required in the workplace and must comply with laws and regulations, the National Construction Code (NCC), Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, workplace requirements, drawings and specifications.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the NCC and Australian Standards for carrying out conite construction and wall sheet panelling
- workplace quality policies and standards for conite construction/wall sheet panels
- safety requirements for carrying out conite construction and wall sheet panelling, including:
 - job safety analyses and/or safe work method statements in accordance with Safe Work Australia *Code of Practice for Construction Work* or state and/or territory equivalent
 - safety data sheets (SDS)
 - personal protective equipment (PPE)
- environmental requirements for carrying out conite construction and wall sheet panelling
- processes, procedures and techniques for carrying out conite construction and wall sheet panelling
- types and uses of tools and equipment for carrying out conite construction and wall sheet panelling
- types and uses of plans, drawings and specifications for carrying out conite construction and wall sheet panelling.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
