**Release: 2**

# Assessment Requirements for CPCCST3022 Carry out profile work

## Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCCST3022A Carry out profile work.
- Updated to meet the Standards for Training Packages 2012.

## Performance Evidence

To demonstrate competency in this unit, a candidate must meet the performance criteria of this unit by carrying out three different profile works and which include hard and soft stone.

In doing this, the candidate must:

- produce three different profiles using three different template materials
- transfer dimensions and reference points to stone
- operate machines and equipment safely to produce profile work to specifications.

## Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- terminology relating to stone profile work
- processes and techniques for:
  - applying profile work too hard and soft stone
  - setting out profiles on various types of template materials:
    - aluminium sheet
    - cardboard
    - plastic sheet
    - plywood
    - zincalume sheet
- characteristics, applications and limitations of specified stone for profiling
- functional and operational features of plant, equipment and hand and power tools:
  - power grinders
  - portable machines
  - diamond cutters
  - travelling arm saws

- battery operated tools
- workplace processes and procedures
- workplace safety:
  - job safety and environmental analysis (JSEA)
  - exposure to silica
  - hazardous manual tasks
  - electrical hazards
  - vibration
  - exposure to excessive noise
- environmental requirements for workplace processes and waste disposal
- standards and codes relating to stonemasonry
- digital technology to source information and communicate with others.

## Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.
