Assessment Requirements for CPCCT4002 Undertake the heritage restoration process

Release: 2

Assessment Requirements for CPCCST4002 Undertake the heritage restoration process

Modification History

Release 2 Updated reference to general construction induction training program.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCBC4039A Undertake the heritage restoration process. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by undertaking and completing a minimum of one heritage building or structure restoration project.

In doing this, the candidate must:

- determine restoration application and finishes in consultation with heritage professionals
- prepare a work schedule and determine work priorities with others on site
- select appropriate equipment and tools and check for serviceability and select, fit and use personal protective equipment
- preserve the fabric of the heritage building or structure
- maintain a record of heritage restoration work carried out and materials used.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- government legislation relating to heritage restoration
- heritage significance as stated in:
 - The Burra Charter
 - Heritage Act
 - Heritage Building Classifications
- construction regulations, standards and codes
- relevant knowledge of characteristics and features of period architecture and period plastering associated with historic buildings
- processes and techniques of:
 - providing appropriate cover protection
 - heritage restoration work

- gathering, documenting and filing relevant heritage information
- characteristics, applications and limitations of materials used for restoration work
- functional and operational features of plant, equipment and hand and power tools
 - battery operated tools
- workplace processes and practices
- workplace safety:
 - working at heights
 - erection of work platforms
 - exposure to silica
 - exposure to excessive noise
 - hazardous manual tasks
 - working with hazardous substances
 - hazardous manual tasks
 - erections of exclusion zones and signage
- preserving the fabric of a building or structure and retarding deterioration
- digital devices, applications and software to achieve tasks outcome
- key features of plans, specifications and drafting techniques
- compliance requirements for relevant trade skills:
 - carpentry
 - gilding
 - painting
 - plastering
 - plumbing
 - stonemasonry
 - tiling

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment.

Candidates must be provided with:

- relevant government heritage legislation:
 - The Burra Charter
 - Heritage Act
 - Heritage Building Classifications
- current building and construction codes and standards
- National Construction Code
- construction and heritage drawings and specifications

- organisational policies and procedures and other quality documentation required to undertake the performance criteria and assessment requirements
- digital devices, applications and software to transmit, receive and save information electronically.
