Assessment Requirements for CPCCST4004 Initiate the heritage works process

Release: 2

Assessment Requirements for CPCCST4004 Initiate the heritage works process

Modification History

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Typographical error corrected in Assessment Conditions.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and equivalent to CPCCBC4035A Initiate the heritage works process. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by completing relevant processes and activities essential prior to the commencement of a heritage restoration project.

In doing this, the candidate must:

- conduct consultative processes associated with preservation of historic structures
- demonstrate understanding of preservation of fabric
- comply with Work Health and Safety (WHS) regulations applicable to workplace operations
- apply organisational quality procedures and processes within the context of initiating the heritage restoration process
- identify job-specific requirements and inherent risks associated with heritage restoration
- select and use appropriate processes to analyse and identify particular needs for projects
- communicate and agree on expectations and timeframes for the work to be undertaken
- apply appropriate techniques to cross-reference interlocking or overlapping operations
- demonstrate techniques to check and ensure relevant information and stages of preparation are fully covered
- carry out interactive communication with others to ensure all factual information is gathered and shared with relevant stakeholders.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- Australian standards relevant to the work

- conservation processes, including good conservation practice arising from principles of Burra Charter
- contractual requirements:
 - materials to be used
 - performance standards
 - timeframes
- dispute resolution processes
- methods and processes relating to historic building construction, including the range and use of building materials, structure of buildings and drafting techniques:
 - heavy and bulky equipment:
 - compressors
 - cranes
 - excavators
 - mobile scaffold or working platforms
 - protection requirements:
 - environmental protection
 - protection for the public
 - site access:
 - access to structures and storage facilities or space, which may be limited
- relevant architectural knowledge, including orders of architecture and the characteristics and features of period architecture
- trade-specific techniques used in restoration work
- workplace and equipment safety requirements, including relevant statutory regulations, codes and standards.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment of performance must be undertaken in the workplace or in a simulated workplace environment.

Assessors are responsible for ensuring that the person demonstrating competency has access to:

- a restoration project that is appropriate to be able to undertake the performance requirements of the units
- appropriate documentation and data related to project.
