Assessment Requirements for CPCCVE1002 Undertake a basic computer design project

Release: 2

Assessment Requirements for CPCCVE1002 Undertake a basic computer design project

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and equivalent to CPCCVE1002B Undertake a basic computer design project. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all the elements, performance criteria and foundation skills of this unit by using a computer drawing program to prepare drawings from a design brief for a basic construction project, such as a simple piece of furniture.

All work must be performed to the standard required in the workplace and meet the design brief.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- workplace quality policies and standards for basic computer design projects
- processes for using hardware and software systems for basic computer design projects
- features of plans and elevations
- techniques for reading and interpreting briefs for simple structures.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed while undertaking workplace tasks:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
