Assessment Requirements for CPCCWF3001 Prepare surfaces for tiling application

Release: 2

Assessment Requirements for CPCCWF3001 Prepare surfaces for tiling application

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and equivalent to CPCCWF3001A Prepare surfaces for tiling application. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by preparing for tiling:

- 9 square metres of a framed bathroom wall and floor
- 9 square metres of a masonry bathroom wall and floor.

All work must be performed to the standard required in the workplace and comply with Commonwealth and state/territory laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications and workplace requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of Australian Standards for preparing surfaces for tiling
- workplace quality policies and standards for preparing surfaces for tiling
- safety requirements for preparing surfaces for tiling, including:
 - job safety analyses and/or safe work method statements in accordance with Safe Work Australia *Code of Practice for Construction Work* or state and/or territory equivalent
 - personal protective equipment (PPE)
- environmental requirements for preparing surfaces for tiling
- types and uses of materials storage and environmentally friendly waste management
- types and uses of tools and equipment for preparing surfaces for tiling
- processes for selection of compatible materials for preparing surfaces for tiling
- processes for the calculation of material requirements for preparing surfaces for tiling
- surface preparation materials and techniques for:
 - underlay material
 - substrate preparation

- substrate surface materials.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
