Assessment Requirements for CPCCWF3004 Repair wall and floor tiling

Release: 2

Assessment Requirements for CPCCWF3004 Repair wall and floor tiling

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and equivalent to CPCCWF3004A Repair wall and floor tiles.
- Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by removing and replacing a minimum of three damaged wall tiles and three damaged floor tiles, combined minimum area one square metre, which are installed with adhesive.

In performing the above tasks, at least one tile must be installed to waterproofing which requires repair.

All work must be performed to the standard required in the workplace and must comply with Commonwealth and state/territory laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications and workplace requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of Australian Standards for repairing tiles
- safety requirements for repairing tiles, including:
 - job safety analyses and/or or safe work method statements in accordance with Safe Work Australia *Code of Practice for Construction Work* or state and and/or or territory equivalent
 - personal protective equipment (PPE)
- environmental requirements for repairing tiles
- types and uses of materials storage and environmentally friendly waste management
- types and uses of tools and equipment types for repairing tiles
- processes for the calculation of material requirements
- techniques for removing and replacing tiles to walls and floors
- tiling material qualities, characteristics, preparation requirements, techniques, applications and limitations:

- adhesive types and classifications
- grout types, including epoxy grout.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
