Assessment Requirements for CPCCP2001 Handle waterproofing materials and components

Release: 3

Assessment Requirements for CPCCWP2001 Handle waterproofing materials and components

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.
Change to Unit Sector.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and equivalent to CPCCWP2001A Handle waterproofing materials.
Change to title. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by handling all waterproofing materials and components for three different waterproofing tasks, using both manual and mechanical handling methods.

All work must be performed to the standard required in the workplace and must comply with laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications and workplace requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- Australian Standards for handling waterproofing materials and components
- plans, drawings and specifications for handling waterproofing materials and components
- workplace quality requirements for handling waterproofing materials
- techniques for safely handling, moving, stacking and storing waterproofing materials and components
- safety requirements for handling waterproofing materials and components:
 - job safety analyses
 - safety data sheets for waterproofing materials
 - personal protection equipment (PPE) for handling waterproofing materials
 - use of tools and equipment for handling waterproofing materials and components:
 - manual handling equipment
 - mechanical handling equipment

- hazard identification and risk controls associated with handling waterproofing materials and components.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
