Assessment Requirements for CPCCWP3005 Assess construction waterproofing processes

Release: 3

Assessment Requirements for CPCCWP3005 Assess construction waterproofing processes

Modification History

- Release 3 Updated reference to general construction induction training program.
- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.
Change to Unit Sector.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and is equivalent to CPCCWP2003A Prepare for construction waterproofing process. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by assessing construction waterproofing processes for each of the following:

- an internal wet area
- an external wet area
- a below ground level wet area
- a remedial waterproofing project.

All work must be performed to the standard required in the workplace and must comply with laws and regulations, Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications and workplace requirements.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- requirements of Australian Standards for assessing and preparing for construction waterproofing process
- safety requirements relevant to handling wall and floor tiling materials, including:
 - job safety analyses and/or safe work method statements in accordance with Safe Work Australia *Code of Practice for Construction Work* or state and/or territory equivalent
 - safety data sheets (SDS)
 - personal protective equipment (PPE)

- handling of hazardous materials
- characteristics and applications of waterproofing materials and adhesives
- construction systems and waterproofing considerations and requirements
- types and uses of materials storage and environmentally-friendly waste management
- types and uses of plans, drawings and specifications for construction waterproofing
- types and uses of tools and equipment for construction waterproofing
- preparation for waterproofing processes and waterproofing techniques
- principles and considerations of water exclusion
- quality requirements for construction waterproofing
- waterproofing process materials:
 - durability
 - compatibility
 - applications
 - protection requirements.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
