Assessment Requirements for CPCPCM2041 Work effectively in the plumbing services sector

Modification History

- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCPCM2041A Work effectively in the plumbing services sector. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria for this unit by:

- complying with relevant work health and safety (WHS) requirements
- identifying relevant standards and industry codes of practice in the plumbing services sector
- applying the relevant regulatory requirements within the plumbing services industry
- working collaboratively as part of the plumbing services workplace processes
- identifying actions to manage workplace and personal conflict situations.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- basic job and skill analysis techniques
- workplace meeting procedures
- plumbing and services streams and career structure and requirements, including business opportunities and requirements
- regulatory and legislative standards and codes of conduct pertaining to the plumbing services sector
- relevant industrial awards and agreements
- relevant legislative provisions covering discrimination and equal employment opportunity
- site and teamwork structure and methods
- important contribution of the plumbing and services sector to public health and safety
- employment awards and conditions and their source
- types of workplace codes of conduct
- safe work practices in a normal working environment.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
