Assessment Requirements for CPCPCM2045 Handle and store plumbing materials

Release: 2

Assessment Requirements for CPCPCM2045 Handle and store plumbing materials

Modification History

- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.
Correction to the Application.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
Supersedes and is equivalent to CPCPCM2045A Handle and store plumbing materials. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria for this unit by:

- applying workplace procedures for the storing and stacking of materials, components, non-hazardous liquids, and flammable liquids and materials in a workshop or worksite
- arranging vehicle for the carriage of plumbing materials.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- categories of materials and their safe handling, storage and transport requirements
- air and water contamination
- job safety analyses (JSAs) and safe work method statements (SWMSs)
- purpose and application of safety data sheets (SDSs) when working with different materials
- work health and safety (WHS) and environmental requirements
- workplace hazard reporting and hazard handling procedures
- workplace response to emergencies.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
